Sacred Geometry Gong Bath with Tomoko

Guided by Archangel Metatron Healing Spray
“Violet Dragon”

This unique session invites you to enter a field of pure energetic alignment. Immerse yourself in a transformative, multi-sensory healing experience that weaves together the radiant frequencies of Metatron Color Healing, the balancing power of sacred geometry, and the deep vibrational resonance of a gong bath.

The immersive tones of the gong wash over you, creating waves of sound that gently dissolve tension, release stagnant energy, and guide you into profound relaxation. The vibrations encourage the nervous system to reset, support the body's natural healing processes, and open doorways to insight, intuition, and inner stillness. (Note: if you prefer not to receive essential oil scents this choice will be honored. Please refrain from attending if you are within your 1st 4 months of pregnancy.)
